

SATHYAMOORTHY S

DevOps & Cloud Engineer

8825795525 | sathyamoorthy078@gmail.com | Vellore, Tamil Nadu

DevOps & Cloud-focused professional with over 6 years of industry experience across engineering and research domains. Hands-on experience with Linux, AWS, Docker, Jenkins, Terraform, Ansible, CI/CD, and cloud infrastructure automation. Passionate about building reliable, scalable, and automated cloud solutions with a strong foundation in infrastructure provisioning, deployment automation, and monitoring. Currently expanding expertise in Kubernetes while continuously strengthening practical DevOps and cloud engineering skills through hands-on projects

TECHNICAL SKILLS & TOOLS

- Operating Systems: Linux
- Cloud: AWS (EC2, AWS CLI, ELB, EBS, CloudWatch, Auto Scaling, S3, RDS, VPC)
- Version Control: Git, GitHub, GitLab
- CI/CD: Jenkins, GitHub Actions
- Infrastructure as Code: Terraform, Ansible
- Containers: Docker, Containerization
- Monitoring & Logging: Prometheus, Grafana, Loki, Alloy
- Scripting: Bash, Python (Basic)
- Configuration: YAML, JSON
- Orchestration: Kubernetes (Learning)

PROFESSIONAL EXPERIENCE

- **Senior Research Analyst**
Exchange Data International India Pvt. Ltd. | *December 2023 – Present*
 - Analyze and validate financial market data to ensure accuracy, consistency, and data integrity.
 - Prepare reports and data visualizations using Microsoft Excel to support business and client requirements.
 - Collaborate with cross-functional teams and provide client support by resolving data-related queries and ensuring timely issue resolution.
- **Production Engineer**
Prolec-GE | *December 2017 – March 2022*
 - Managed day-to-day production operations while ensuring adherence to quality, safety, and delivery standards.
 - Coordinated with production, quality, and maintenance teams to troubleshoot issues and improve operational efficiency.
 - Monitored manufacturing processes and supported continuous improvement initiatives to enhance productivity and process reliability.

PROJECTS

CI/CD Pipeline with Jenkins

Technologies: Jenkins, Docker, AWS, Git, CI/CD

- Designed and implemented an automated CI/CD pipeline using Jenkins for application build, testing, and deployment.
- Automated Docker image creation and deployment to AWS, reducing manual deployment effort.
- Streamlined the software delivery process through continuous integration and deployment practices.

AWS Multi-tier VPC Architecture

Technologies: AWS VPC, EC2, Internet Gateway, NAT Gateway, Route Tables, Security Groups

- Designed and deployed a secure multi-tier AWS VPC architecture with public and private subnets.
- Configured Internet Gateway, NAT Gateway, route tables, and Security Groups to enable secure network communication.
- Implemented network segmentation and secure connectivity between EC2 instances following AWS networking best practices.

Static Website Deployment on AWS

Technologies: AWS EC2, Linux, Nginx, Git, SSH

- Deployed a responsive static website on an AWS EC2 instance using the Nginx web server.
- Configured the Linux server, Nginx, and AWS security groups for secure application hosting.
- Managed application deployment using Git and SSH while ensuring website availability through proper server configuration.

EDUCATION

Bachelor of Engineering (B.E.) – Electrical and Electronics Engineering (EEE)

Rajalakshmi Engineering College, Chennai

LANGUAGES

- English
- Tamil
